

Class Instructions for Mar. 20, 2018

Prior to Class:

Under Soil & Plant Nutrition Module, Read the Overview, Chapter 3 (Soil Science), Chapter 4 (Urban Soil Management), Chapter 5 (Plant Mineral Nutrition & Fertilizers) & Chapter 22 (Composting) from on-line Blackboard or thumb drive.

- Download & read EB1971E “Home Gardener Guide to Soils & Fertilizer” & EB1503 “Fertilizing your Home Garden”
- Under Presentations and Videos watch the following: “Soil Sampling” & “Soil Structure”. Watch the others if time allows.

VERY IMPORTANT Obtain a soil sample as per the attachments provided in Feb & bring samples to class:

- Instructions for Soil Testing Workshop.
- Soil Evaluation in jar send with class assignment.

Morning Class:

Soil Testing (Veteran MG & MRC Bob Taylor) & Basic Composting.

Afternoon Class:

Worm Composting, Advanced Composting & Hugelkultur.

Tour to Centralia Transfer Station & view composting & recycling site. We will be carpooling Providence Demonstration Garden is approximately 3 miles away from the classroom. Please dress for the weather!
