

# Presentation Evaluation Form

To continue providing horticulture education to Lewis County residents, WSU Extension is required to document program results on a yearly basis. The information gathered from these questionnaires is provided to Washington State University, state legislators, and Lewis County Commissioners. Your participation is essential for us to determine if our educational efforts are accomplishing their intended goals. We appreciate you taking a few minutes to answer our questions. Please feel free to take this form home to fill out and mail back to us.
